## The Way of Stones

### HOW DO THE STONES OF ICHIDO?

Each stone is a unique piece of natural stone, with its own shape, size, and color. The stones are arranged in a grid, and the player's goal is to create a path of stones that leads from the start to the end. The stones are arranged in a grid, and the player's goal is to create a path of stones that leads from the start to the end.
